Hi Derek,

Please see the attached pre-closure notification form for the two dry wells on Cowlitz Tribe land.

Please let me know if you need anything else.

Thanks,  
Amber

Hi Derek,

The two dry wells were situated behind an old farmhouse. One is 5 feet in diameter and 5 feet deep. The other is 8 feet in diameter and 8 feet deep.

I am having trouble locating any Phase I ESA/historical information. Do you think that the residential use is cause for any further action than the Pre-Closure form?

Let me know what you think.

Amber

Hi Amber,

Per our conversation, below is a link to the Pre-Closure Notification Form (7520-17). I look forward to any information you can obtain regarding past potential uses of these wells.

**Subject:** Dry well decommissioning on Cowlitz Tribe land

Hi Derek,

I am looking for information on whether or not we need to fill out any special paperwork to fill in some dry wells on land owned by the Cowlitz Tribe near La Center, WA.

The dry wells are lined with brick. They are wanting to fill them in with clean structural fill material.

Please let me know if I need to coordinate with anyone on this.

Thank you,

Amber Roesler
